

## Childrens Parties

Scrumdingers offers an excellent selection of children's party food.

All children love to have a themed birthday party. It's their opportunity to share their special interests with friends and leave a lasting impression.

Whether a Fairy or Princess, Pirate or footballer, no party is really complete without party food that ties in with the theme.

Using the freshest ingredients available, our food is prepared on the day, displayed on disposable platters and delivered direct to your door, ready to eat.

Please feel free to contact us discuss what sort of themed food would complement your child's party. When we have enough ideas and details, we will offer you a written quotation without any obligation.
